## INTRODUCTION

This release note provides information about the DataMotion SCP Release 7.02.4. This release is a culmination of changes and enhancements as well as bug fixes for the platform. An overview of these enhancements is included in this document as are highlights of various bug fixes.

## CHANGES AND ENHANCEMENTS MADE IN THIS RELEASE

### REPORTS PAGING

A pagination sort has been added to the Reports pages for easier sorting of multiple reports. This will appear on the Reports pages as the following:

The screenshot shows the 'Reports' section with a green 'Reports' button. Below it is the 'Account Type Settings History' table. The table has columns: Account Type, Setting Name, Previous value, Value, and Email. The data row shows 'Client' for 'Send scope for new' with 'Previous value' 0 and 'Value' 1. The 'Email' column shows 'autoload'. Above the table is a pagination bar with '<<', '<', 'Page 1 of 1', '>', '>>', and a download icon.

### LOGIN COUNT CHART

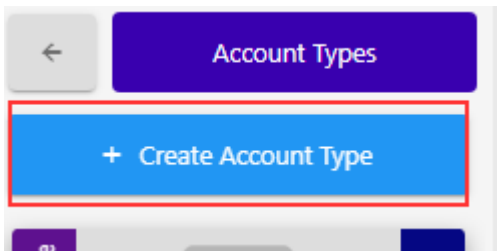

The Login Count chart has been changed to be a two-line bar chart instead of a stacked bar chart for easier viewing. Example of the change below:

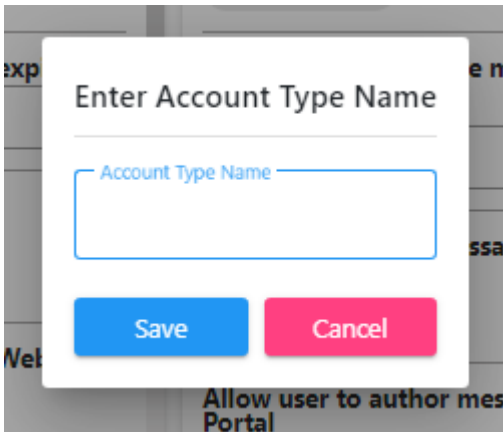

## ACCOUNT CREATION

Creating an Account type has been changed so that a unique name can be specified before saving and creating the Account type. This requires different steps than previous releases and these steps have been included below for reference (these steps assume you are on the Account Types view).

1. Click the Create Account Type button.

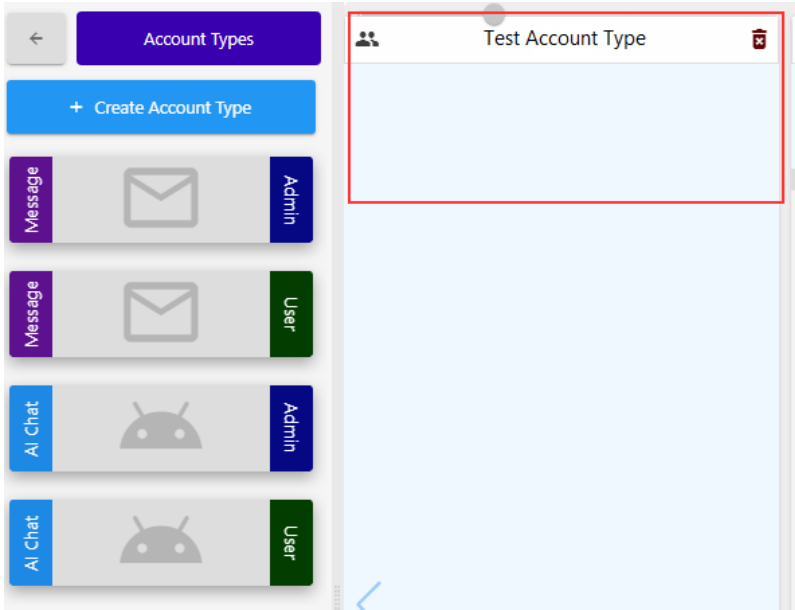

2. Enter the Account Type Name on the Enter Account Type Name dialog box.

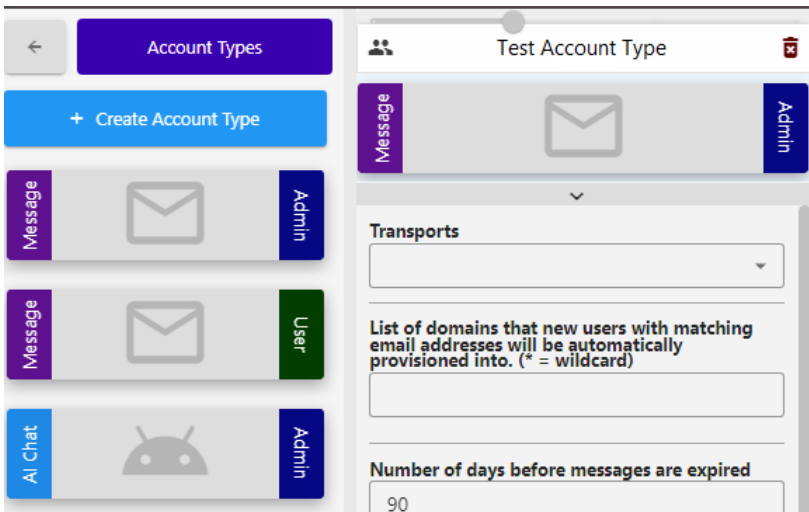

3. Click the Save button.

- The Account Type will be created.

- Add parameters as desired to the new Account Type.

## RESOLVED ISSUES

The following-reported issues have been resolved in this release. If this is a Maintenance Release, the most recent Maintenance Release is listed first. (Note that some Maintenance Releases may not be listed because they do not always require documentation).

**Table 1. Resolved Issues**

| Original Issue                                        | Description/Resolution                                             | Notes                               |
|-------------------------------------------------------|--------------------------------------------------------------------|-------------------------------------|
| Inaccurate message counts being displayed in reports. | Updates were made to the reporting database to correct this issue. | Resolves issue from Ticket#10222996 |
