INTRODUCTION

This release note provides information about the DataMotion SCP Release 7.16. This release is a culmination of bug fixes for the platform as this is primarily a maintenance release.

RESOLVED ISSUES

The following-reported issues have been resolved in this release. If this is a Maintenance Release, the most recent Maintenance Release is listed first. (Note that some Maintenance Releases may not be listed because they do not always require documentation).

Table 1. Resolved Issues

Original Issue	Description/Resolution	Notes
The mobile view of the secure platform's web portal would sometimes cut part of the UI off.	On certain Android devices the web portal would cut parts of the Secure Message Center text in the header out of the UI. This has been corrected and should no longer occur.	Affected mobile users of the Secure Message Center on Android devices.
Some recent forms would be created and not have a Submit button.	Some newly created secure forms would lack a Submit button once they were finalized and made them unable to be used. This has been corrected and should no longer occur.	Affected secure forms creation and usage on the web portal of the Secure Message Center.
Certain API requests would return unnecessary statements in the response.	Updates have been made to the APIs and certain queries to remediate this issue and it should no longer occur.	Affected the Secure Platform APIs.

KNOWN ISSUES

The following table includes known issues discovered but not resolved as of this release.

Issue
When changing a user's username, there is no warning given to the user and they are logged out.
In the Account Type Settings Report some Previous Value fields are not displayed when after changing a setting.
