INTRODUCTION

This release note provides information about the DataMotion SCP Release 7.32.3. This release is a culmination of bug fixes and enhancements for the platform in this release. General updates and platform improvements have also been performed for maintenance purposes to enhance the overall user experience.

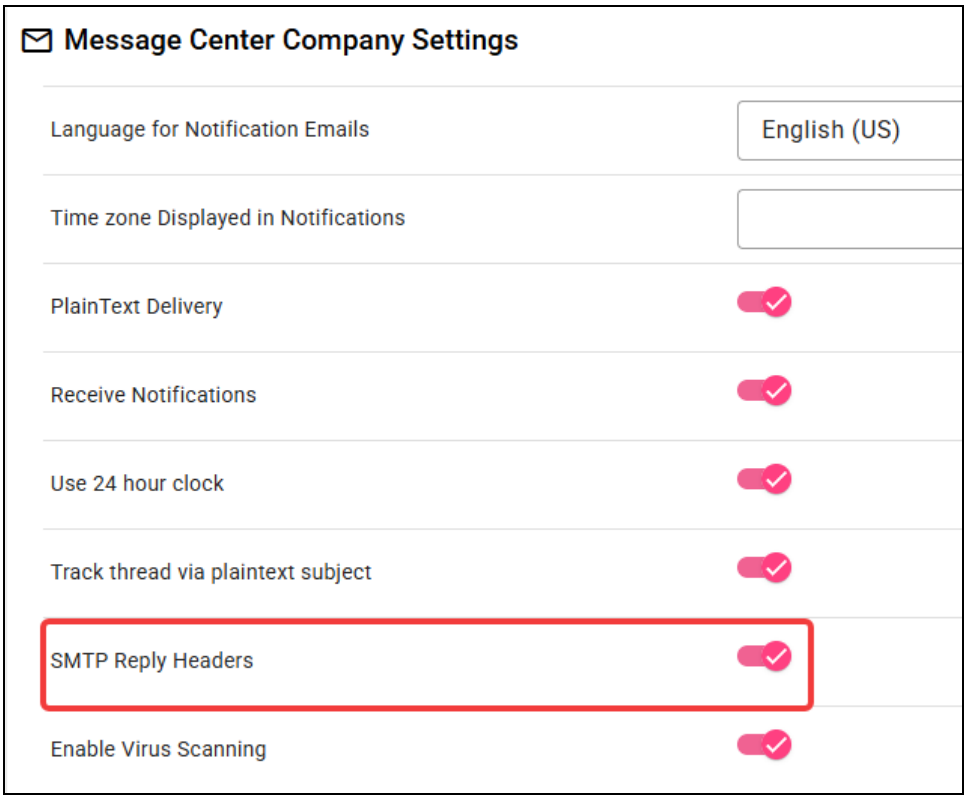

CHANGES AND ENHANCEMENTS IN THIS RELEASE

PLATFORM CONNECTIVITY IMPROVEMENTS

This release includes overall platform enhancements to improve user connectivity when utilizing the embedded (Low Code) experience.

MESSAGE HEADER ENHANCEMENTS

A set of SMTP headers will now be able to be included within messages and configurable via a toggle by tenant administrators. This setting is located in the Message Center Company Settings and looks something like the following:

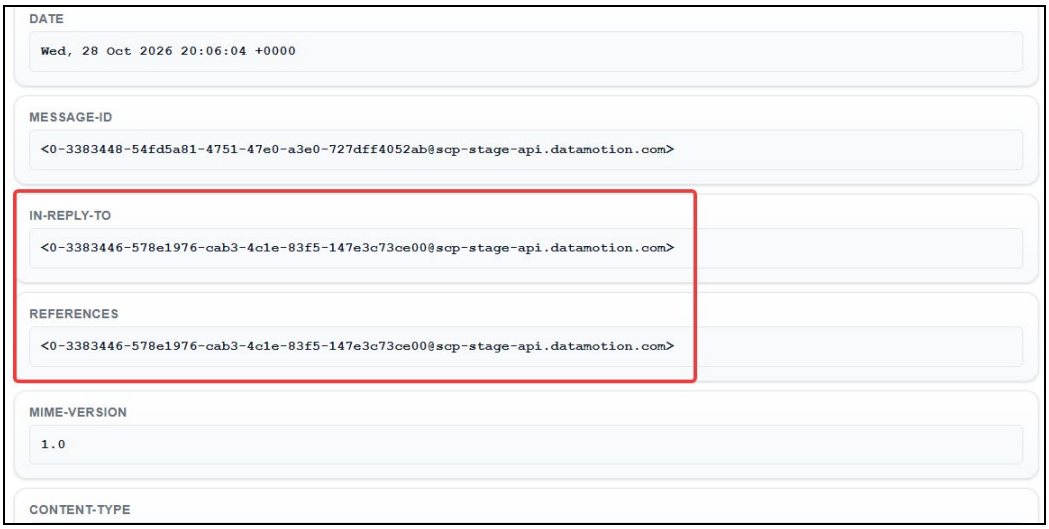

PUBLIC
Public Release Authorized

In particular this setting will insert the following headers into message replies:

- References
- In-Reply-To

Users can check that these headers are present within a reply message by simply selecting a message and opening the Message Headers view from the three vertical dots menu. The headers should appear within this view and look similar to the below example:

SECURE MESSAGING API UPDATE

This release will include a new function in the Secure Messaging API which will be a PATCH function with the route of /account/info. This function will allow for partial updates to a user's own account information.

RESOLVED ISSUES

The following-reported issues have been resolved in this release. If this is a Maintenance Release, the most recent Maintenance Release is listed first. (Note that some Maintenance Releases may not be listed because they do not always require documentation).

Table 1. Resolved Issues

Original Issue	Description/Resolution	Notes

KNOWN ISSUES

The following table includes known issues discovered but not resolved as of this release.

Table 2. Known Issues

Issue
When changing a user's username, there is no warning given to the user and they are logged out.
In the Account Type Settings Report some Previous Value fields are not displayed when after changing a setting.
